Dr. Richard Wilkinson is employed as an associate research scientist in the High Energy Physics (HEP) Department at the California Institute of Technology (Caltech) working with the CMS group headed by Professor Newman US-CMS Collaboration Board Chairperson. Dr. Wilkinson's assignment will continue indefinitely with much of his working time being spent at CERN in Geneva, Switzerland. While at CERN, all of his pay (salary) and expenses including incidental, medical and travel will be paid in full by Caltech's HEP Department.
